Best Practical Learning Guides From Moldex3D Experts

Moldex3D University is a digital learning platform for plastic molding. Users can easily navigate through a variety of interactive and professional training contents to elevate plastics processing knowledge anywhere, anytime.

PLM EGYPT	
Industrial Solutions for CAD /CAM /CAE /Tooling /Inspection Application	
Address	1 DR Mohamed abou state from 23 Joseph Tito St. New Nozha, Cairo, Egypt
Telefax	+02 26222261
Mobile:	+02 01000070422 +02 011 29500936
Zip	4473215
E.MAIL	INFO@Egyptplm.COM
Website	www.Egyptplm.COM

Moldex3D University Offer :

Moldex3D Plastics e-Learning (MPE)

Step-by-step guide to injection molding process also include virtual molding machine operation.

Course Outline :

- Development Process of Injection Molding
- Injection Machine Virtual Operation
- Theory and Application of Hot Runner System
- Mold Structure and Case Analysis
- Molding Machine Operation
- Quiz

Moldex3D Software Training

The best practical guide and demo videos by Moldex3D software experts.

Course Outline :

- Molding Simulation: Basic Class
- Molding Simulation: Studio Operation Class
- Advance Molding Simulation: Studio Operation Class
- Step-By-Step Practice
- Moldex3D Studio Advanced Operation
- SYNC Operation

Open Course

Free viewing is available with a Moldiverse account registration.

- Topics include best practice, tips & tricks, and advanced application/processes.
